<b>Other</b>	<b>Contingency</b>				✓ 4403 Approp.

**All costs are coded to the STIP job number [SAMIII project number].**

Award date for D/B projects corresponds to when the district presents the project to the Commission for approval of the D/B consultant/contractor team. The award date also determines the state fiscal year the D/B project is programmed in.

Please refer to [Common STIP References](#) Stylesheet and Programming Guidance for additional programming of Design/Build projects.

All PE, Right of Way Acquisition, Utility Costs and CE that are part of the Design/Build Contract are programmed in the SIMS Budget as part of the Contract Estimate. The obligation of federal funds is done just before the RFP is issued.

Federal funds are also obligated for MoDOT activities, PE/CE, RW or Utilities prior to the start of any activity.

Use of the DBC Budget requires approval from the DBC Committee.
