

UAP

# Water-Soft

## WARNING

### KEEP OUT OF REACH OF CHILDREN

Do not get in eyes, on skin or on clothing. Do not take internally. Harmful if swallowed. Avoid breathing mists or sprays of product. Use with adequate ventilation. Wear goggles, face shield, rubber gloves, etc. as required to avoid contact with this product or prolonged contact with diluted solutions. Wash thoroughly with water after handling.

Keep container closed when not in use.

Read the Material Safety Data Sheet for this product.

Contains tetrasodium EDTA.

## FIRST AID

**If in Eyes:** Flush eyes with plenty of cool water for 15 minutes while holding eye open to ensure complete rinsing. Seek medical attention.

**If on Skin:** Flush with water. If irritation persists, contact a physician.

**If Ingested:** Causes burns of mouth and throat. Drink milk or water. DO NOT induce vomiting. Immediately call poison control center or physician.

## DIRECTIONS

Add 1 to 4 quarts of **Water-Soft** to each 100 gallons of spray mix according to water hardness (calcium carbonate). **Water-Soft** will neutralize the calcium ions that may reduce the herbicide activity. Use **Water-Soft** only with water mixtures. The treatment is especially beneficial with amine formulations.

## USE THE FOLLOWING GUIDELINES FOR RATES:

**50-150 ppm Calcium:** Add 1 quart of **Water-Soft** for each 100 gallons of spray mix.

**150-250 ppm Calcium:** Add 2 quarts of **Water-Soft** for each 100 gallons of spray mix.

**250-350 ppm Calcium:** Add 3 quarts of **Water-Soft** for each 100 gallons of spray mix.

**350 or more ppm Calcium:** Add 4 quarts of **Water-Soft** for each 100 gallons of spray mix.

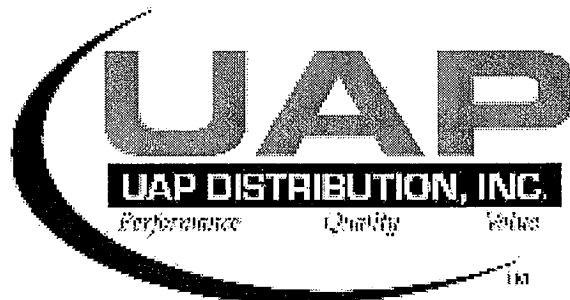

**NOTE:** 17.1 ppm calcium carbonate equals 1 grain of hardness.

## MIXING

Mixing sequence: Always add **Water-Soft** directly to the water PRIOR to any additional tank mix product.

1. Fill container 1/2 full with water.
2. Add **Water-Soft** to water. Mix or stir this treated water solution. Add remaining volume of water.
3. Following label recommendations, you should now add your chemical(s) to this **Water-Soft** treated solution. Agitate to ensure complete mixing.
4. Spray your target.

**NOTICE:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
